

Emergency tub MCI Save LP for active environmental protection

Hazards

Risk for groundwater and the environment when fuels, lubricants, hydraulic and gear oil leak unexpected

The polluter has to pay for the material damage

The corporate image will be damaged

Protect yourself from criminal charge, expenses and loss of image, create an exemplary function

Our solution

The MCI-SAVE-LP with emergency set

- can be used for sudden leaks and service work, e.g. oil changes, parts cleaning, temporary canister placement, soil conservation
- place-saving storage, readily applicable for use on all types of transportation vehicles, easy to clean, e.g. accompanying oil binders
- flexibel and „cross-country“, prevents leakage of oil and petrol in the natural soil
- in oil and chemical barrel storage
- as a general soil protection for any leaking fluids and chemicals

- **MCI-SAVE-LP** emergency tub, folding.
- **Supplies:** Bio oil binder, rubber clove, disposal bag, bag.

Technical specifications

Not suitable for storing liquids!

Form: see picture, portable, foldable
Measures : 0,7 x 0,7 m / 1,1 x 1,1 m / 1,6 x 1,6 m / 2,1 x 2,1 m / 2,0 x 1,0 m / special measure on request.

E.g. catch bassin fort anker loading/unloading

Rim: 5 - 10 cm, flexibel, able to drive over!

Storage: stowed in a small space!

capacity:
for leaking liquids approximately **10 l – 120 l** (depending on size)

TEMP. resistance:
 petrol, fuel additives, oils, detergent, chemicals etc.
